

## YL9200 Series Solvent Delivery Pump

### Major Features

- Liquid delivery method : single head, high speed suction, constant speed operation
- Liquid delivery mode : constant speed, constant pressure and outside input
- Head size : 64 $\mu$ l integrated type of cleaning part (YL9200A)
- Flow rate designation range : 0.001-10.0ml/min (YL9200A)
- Exactness of flow rate : 2%(at 1.0ml/min)
- Preciseness of flow rate : 0.2%(RSD)
- Maximum pressure durability : 6000psi
- Compression ratio compensation method : flow rate compensation type versus pressure
- Material of solvent contacting part : SUS316, zirconium, sapphire, UHMWTE
- Outside input and output : RS232C communication, remote start/stop, frequency input, switch output
- Power source : AC110V(or 220V)  $\pm$ 10%
- Size : 210mm\*210mm\*450mm (W,H,D)
- Weight : 8kg

### Warranty

- 1 year from installation date
